Werik Santos

Full-Stack Developer | React, TypeScript and Node.js

Salvador, Bahia, Brazil | werikanjos02@gmail.com

PROFESSIONAL PROFILE

Developer working on the SIM Instituto Social platform and building ExtraOK. Experience with React interfaces, API integration, Node.js services, data validation, and PostgreSQL persistence. Professional focus on Full-Stack development.

SKILLS

React, TypeScript, JavaScript, Tailwind CSS, Node.js, Fastify, Prisma, Knex, PostgreSQL, Zod, Vitest, Git, and Docker.

PROFESSIONAL EXPERIENCE

SIM Instituto Social | Front-End Developer
March 2025 - present | Part-time

• Develop and maintain web platform features with React and TypeScript interfaces and API integrations.

• Implemented a chatbot with conversation history and submission/error states. Built a Node.js layer to access the OpenAI API with server-side credentials.

• Refactored components and implemented form validation and feedback for interaction flows.

SELECTED PROJECTS

ExtraOK | Personal product in development
React/Fastify monorepo for clients, jobs, and extra-service approvals. Prisma/PostgreSQL persistence, sessions, and expiring approval links.

Financial Transactions API | Practice project
Session-scoped transaction creation, lookup, and balance summary with Fastify, Knex, and Zod. Repository includes Vitest/Supertest integration scenarios.

Pizza Shop | Interface practice project
Dashboard and order screens with React and TypeScript, Recharts visualizations, routing, and filter/detail components.

COURSES AND CERTIFICATES

Rocketseat | Back-End with Node.js - 2026
Rocketseat | Fullstack and Full-Stack Development - 2025
DevClub | Front-End Development - 2025
